

THE WORLD OF COUNTRYLIFE MUSEUM @ EXMOUTH NACC DEVON SECTION BIKE DISPLAY REPORT

It was decided last year to have a display of a few bikes to fly the flag for the club at the World of Country Life vehicle rally organized by the Westcountry Classic Car Club. Over the last couple of months much interest was shown to have a club display which brought in 7 members displaying 12 bikes which gave us an impressive line up.

On Friday The World of Country Life hit the national news headlines with the announcement that the centre had been close with an outbreak of the Ecoli bug in the children's farm petting area. Gladly this was only to be a partial closure and with frantic work by the Westcountry Car Club in contacting entrants and the local media, word got around that the rally was still on for Sunday.

Members and families had turned up in good time to sort and display our machines with James's a little lost in Exmouth who arrived in good time. As I have mentioned before this is a terrific place for every one to come and look around, also one of the best kept and cleanest place's around. The displays of country life and vintage vehicles including steam are all working with many going to shows in the area, all being restored to a top class condition. Those displaying bikes were Des & Irene, James, Roy, Terry (new member), John, Steve, with partners and friends. Bikes displayed were, Mobylette, Raleigh Runabout, 2 cyclomasters, Tomos, Excelsior Consort, Garelli, Francis Barnett Powerbike, NSU Quickly, PowerPak, Berini and Teagle.

Look forward to the 19th September 2010, one for your diary, also a big thankyou to World of Country Life and West Country Car Club.

Roy
