

July 20th The Devon Section Powderam Club Stand

Every one was looking forward to a long busy weekend talking bikes with the the public and club members also catching up with old and new members. Sadly due to the weather which was the worst seen at Powderam for many years the show ended up being cancelled on the Sunday morning. But we did manage to have a great time in setting up and with a little sunshine we had short time with the public on the Saturday morning.

Full report will be in buzzing. Roy
